PROFESSIONAL SUMMARY

Salesforce developer with 4+ years of experience specializing in integrations, automation, and system optimization.

I help businesses fix broken Salesforce workflows, resolve API and integration issues, and build scalable automation systems that reduce manual effort and improve data accuracy.

Strong expertise in Apex, Lightning Web Components (LWC), REST/SOAP APIs, and CI/CD, with a focus on delivering reliable, high-performance solutions in real-world business environments.

CORE SKILLS

Salesforce & Architecture:
Sales Cloud, Service Cloud, Experience Cloud, Data Modeling, Role Hierarchy, Sharing Model, Solution Design

Development & Customization:
Apex (Triggers, Batch, Queueable), LWC, Aura, Visualforce, SOQL/SOSL, Platform Events

Integrations & Automation:
REST/SOAP APIs, Webhooks, Named Credentials, External Services, Flows, Process Automation

DevOps & Tools:
Gearset, Copado, Git, Bitbucket, Salesforce CLI (SFDX), CI/CD Pipelines

Data & Performance:
Large Data Volumes (LDV), Data Quality, Validation Rules, Query Optimization, Debugging

---

KEY PROJECTS / SOLUTIONS DELIVERED

Salesforce–External API Integration

- Built REST-based integrations enabling real-time data synchronization with external systems
- Implemented error handling and retry mechanisms to improve system reliability
- Resolved API failures and reduced data inconsistencies across systems

Salesforce Automation System

- Designed lead-to-opportunity automation using Flows and Apex
- Reduced manual effort and improved response time for sales teams
- Optimized workflows to increase operational efficiency

Data Quality & System Optimization

- Implemented validation rules and deduplication strategies
- Improved data accuracy and reporting reliability
- Performed performance tuning and governor limit optimization

---

PROFESSIONAL EXPERIENCE

Senior Salesforce Developer
Thoughtworks | Jan 2026 – Present

- Contributing to enterprise Salesforce solutions with a focus on scalable integrations and automation
- Designing and optimizing REST-based integrations to ensure reliable data flow across systems
- Collaborating with cross-functional teams to improve CRM workflows and system efficiency
- Troubleshooting complex production issues and implementing long-term fixes to enhance system stability

---

Senior Salesforce Developer
Texve System, Chennai | June 2024 – Dec 2025

- Led enhancement and support initiatives to improve system reliability and scalability across Salesforce platforms

- Designed and developed Apex and LWC components aligned with enterprise standards
- Resolved critical production issues (L3 support), reducing downtime and improving system stability
- Built and optimized workflows and automation to reduce manual processes and improve efficiency
- Implemented data quality checks, improving reporting accuracy and business insights

🏆 Shining Star Award – Nov 2024

Senior Salesforce Developer
InfoBeans CloudTech Ltd., Pune | March 2023 – June 2024

- Delivered scalable Salesforce enhancements across Sales, Service, and Experience Clouds
- Developed Apex, triggers, and LWC components to support business requirements
- Automated business processes using Flows, reducing manual intervention
- Managed deployments using Gearset and Bitbucket, ensuring smooth CI/CD processes
- Conducted code reviews and enforced best practices for system performance and security

🏆 Hot Stepper Award – Dec 2023

Salesforce Developer
Atlast Infosoft Solutions, Bangalore | Jan 2022 – March 2023

- Developed Apex, LWC, and Visualforce solutions to enhance CRM functionality
- Integrated Salesforce with third-party systems using REST APIs for real-time data sync
- Supported data migration, testing, and deployment activities
- Optimized workflows and automation to improve user adoption and system efficiency

---

CERTIFICATIONS

- Salesforce Certified Platform Developer
- Salesforce Certified Platform Administrator
- Salesforce Certified JavaScript Developer
- Salesforce Certified AI Associate
- Salesforce Certified Agentforce Specialist
- Salesforce Certified Platform Foundations
